Independent auditor's report on review of interim financial information

To the Board of Directors of Pacific Cross Health Insurance Public Company Limited

I have reviewed the accompanying statement of financial position of Pacific Cross Health Insurance Public Company Limited as at 30 September 2020; the statements of comprehensive income for the three-month and nine-month periods ended 30 September 2020; the statements of changes in equity and cash flows for the nine-month period ended 30 September 2020; and the condensed notes ("interim financial information"). Management is responsible for the preparation and fair presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

Other Matter

The statement of financial position of Pacific Cross Health Insurance Public Company Limited as at 31 December 2019, which is included as comparative information, was audited by another auditor who expressed an unqualified opinion thereon in his report dated 23 April 2020. Furthermore, the statements of comprehensive income for the three-month and nine-month periods ended 30 September 2019, changes in equity and cash flows of Pacific Cross Health Insurance Public Company Limited for the nine-month period ended 30 September 2019, which are included as comparative information, were reviewed by another auditor who expressed an unmodified conclusion thereon in his report dated 12 November 2019.

These notes form an integral part of the interim financial statements.

The interim financial statements issued for Thai regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language financial statements, and were approved and authorised for issuance by Company's Board of Directors on 13 November 2020.

1 General information

Pacific Cross Health Insurance Public Company Limited, the "Company", is incorporated in Thailand and has its registered office at 152 Chartered Square Building, 21st floor, North Sathorn Road, Silom, Bangrak, Bangkok.

The Company's major shareholders during the period were Med-Sure Services Company Limited (69.15% shareholding) which is incorporated in Thailand.

The principal activities of the Company is operate in non-life insurance.

2 Basis of preparation of the interim financial statements

(a) Statement of compliance

The interim financial statements are prepared on a condensed basis in accordance with Thai Accounting Standard (TAS) No. 34 (revised 2019) Interim Financial Reporting and guidelines promulgated by the Federation of Accounting Professions. In addition, the interim financial statements are prepared in accordance with the Notification of the Office of Insurance Commission regarding "Rules, Procedures, Conditions and Timing for the Preparation and Submission of the Financial Statements and Reporting of the Operations of Non-Life Insurance Companies" B.E. 2562 (No. 2), dated 4 April 2019, which is effective for periods beginning on or after 1 January 2020.

The interim financial statements do not include all of the financial information required for full annual financial statements but focus on new activities, events and circumstances to avoid repetition of information previously reported. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Company for the year ended 31 December 2019.

The Company has initially applied TFRS - Financial instruments standards, TAS 32 Financial Instruments: Presentation, and TFRS 16 Leases and disclosed impact from changes to significant accounting policies in note 3.

In addition, the Company has not early adopted a number of new and revised TFRS, which are not yet effective for the current period in preparing these financial statements. The Company has assessed the potential initial impact on the financial statements of these new and revised TFRS and expects that there will be no material impact on the financial statements in the period of initial application.

(b) Use of judgements, estimates and accounting policies

In preparing these interim financial statements, judgements and estimates are made by management in applying the Company's accounting policies. Actual results may differ from these estimates. The accounting policies, methods of computation and the key sources of estimation uncertainty were the same as those that described in the financial statements for the year ended 31 December 2019, except for the new significant judgements and key sources of estimation uncertainty related to the application of new TFRS as described in note 3.

Notes to the condensed interim financial statements

For the three-month and nine-month periods ended 30 September 2020 (Unaudited)

3 Changes in accounting policies

TFRS 4 *Insurance Contracts* (revised 2019), has allowed insurance entities that meet the conditions as laid down by TFRS 4, to use the deferral approach to TFRS 9 and TFRS 7 for insurance entities and continue to apply Accounting Guideline: Financial Instruments and Disclosure for insurance entities until TFRS 17 *Insurance Contract* becomes effective.

However, the Company has not met the conditions as mentioned in TFRS 4 *Insurance Contracts* (revised 2019) and has to apply TFRS9: Financial instrument.

From 1 January 2020, the Company has initially applied TFRS - Financial instruments standards, TAS 32 Financial Instruments: Presentation, and TFRS 16 Leases. Impact of changes in accounting policies on shareholders' equity are as follows:

		Deficit (in Baht)
At 31 December 2019 - as reported	Note	(380,478,769)
Decrease due to:		
Adoption of TFRS - Financial instruments standards	7.1	((0.405)
Impairment losses on financial assets	(a)	(60,495)
At 1 January 2020 - restated		(380,539,264)

(a) TFRS - Financial instruments standards and TAS 32

The Company has adopted TFRS - Financial instruments standards and TAS 32 by adjusting the cumulative effects to deficit on 1 January 2020. Therefore, the Company did not adjust the information presented for 2019.

These TFRS - Financial instruments standards establish requirements related to definition, recognition, measurement, impairment and derecognition of financial assets and financial liabilities, including accounting for derivatives and hedge accounting. The impact from adoption of TFRS - Financial instruments standards are as follows:

(1) Classification and measurement of financial assets

TFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value to other comprehensive income (FVOCI) and fair value to profit or loss (FVTPL). The classification under TFRS 9 is based on the cash flow characteristics of the financial asset and the business model in which they are managed. TFRS 9 eliminates the previous classification of held-to-maturity debt securities, available-for-sale securities, trading securities and general investment as specified by TAS 105.

Under TFRS 9, interest income and interest expenses recognised from all financial assets measured at amortised cost shall be calculated using effective interest rate method. Previously, the Company recognised interest income and interest expenses at the rate specified in the contract.

The following table shows measurement categories under previous standards and TFRS 9, including reconciliation of the carrying amounts of the Company's financial assets as at 1 January 2020.

Notes to the condensed interim financial statements

For the three-month and nine-month periods ended 30 September 2020 (Unaudited)

		Classification under
		TFRS 9
Classification under previous standards a	t 31 December 2019	at 1 January 2020
	Carrying amounts	Amortised cost - net
	(in	Baht)
Investment in securities		
Held to maturity securities		
- Deposits at banks with original		
maturity over 3 months	250,236,389	250,236,389
Total	250,236,389	250,236,389

(2) Impairment - Financial assets and contract assets

TFRS 9 introduces forward-looking 'expected credit loss' (ECL) model. TFRS 9 requires considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. The new impairment model applies to financial assets measured at amortised cost, except for investments in equity instruments.

The Company has determined that the application of TFRS 9's impairment requirements at 1 January 2020 results in an additional allowance for impairment loss as follows:

(in Baht)

Allowance for impairment loss at 31 December 2019

Allowance for impairment loss of investment in securities Held to maturity securities

- Deposits at banks with original maturity over 3 months

Additional impairment loss recognised at 1 January 2020 on:

Financial assets

- Financial assets measured at amortised cost
Allowance for impairment loss at 1 January 2020

60,495 **60,495**

The Company has adopted to recognise the increase of impairment loss as an adjustment to deficit as at 1 January 2020.

(b) TFRS 16 Leases

From 1 January 2020, the Company has initially adopted TFRS 16 Leases on contracts previously identified as leases according to TAS 17 Leases and TFRIC 4 Determining whether an arrangement contains a lease using the modified retrospective approach.

Previously, the Company, as a lessee, recognised payments made under operating leases and relevant lease incentives in profit or loss on a straight-line basis over the term of the lease. Under TFRS 16, the Company assesses whether a contract is, or contains, a lease. If a contract contains lease and non-lease components, the Company allocates the consideration in the contract based on stand-alone selling price (transaction price). As at 1 January 2020, the Company recognised right-of-use assets and lease liabilities, as a result, the nature of expenses related to those leases was changed because the Company recognised depreciation of right-of-use assets and interest expense on lease liabilities.

Notes to the condensed interim financial statements
